Will Rogers Remarks:

BEVERLY HILLS, Oct. 24 .- [To the Editor of The Times:] Morrow got to Mexico O. K. He was only an ambassador and not a candidate. Poor Mrs. Grayson, to save wear and tear on bidding her friends good-by so much, won't be on the ship on its next two

starts. If they ever get Prince Carol on the throne in Rumania they could use Mme. Lupescu as lady in waiting. It's funny to me they don't get that guy on WILL ROGERS.

Politicians Favor Vice-President; Capital Reluctantly Admits Coolidge Not to Run

BY BOBERT B. ARMSTRONG

WASHINGTON, Oct. 24. (Exclusive)-Every working day Washington becomes more and more convinced that Calvin Coolidge cannot be drafted for the Republican nomination in 1928. As the procession of Senators and party leaders trends toward the White House with the near approach of Congress, more and more men emerge from the executive offices with the firm if reluctant conviction that the President means what he said in the Black Hills in August and nothing can change him.

Final American Rejoinder Believed to Pave Way for Provisional Arrangements

PARIS, Oct. 24. (P)—Washington's rejoinder to the last French tariff note was delivered at the Foreign Office this afternoon by Sheldon Whitehouse, American Charge d'Affaires. It was translated quickly and forwarded to M. Bokanowski, the Minister of Commerce.

The understanding is that the note made a good impression by its brevity and conciliatory business tone.

Foreign officials, however refused to comment on the document, though expressing strong hope that it will and the era of exchanges and bring about a direct negotiation for a provisional arrangement to isst until an agreement is reached

Rejuvenated Poly Gridders Tackle Lincoln

Jefferson Bleven

Although this week's City League football program is not expected to provide anything sensational in the way of upsets, it has one advantage that it will give prep fans a chance to look at four teams in action instead of the customary two that they'd ordinarily have to pick out for their Friday entertainment.

The reason for the fans' chance to see an extra game is that the Poly-Lincoln struggle has been moved up a day and will be played Thursday in the Colliseum.

Roman eleven.

Conch Voyle Brennen's Mschanics, who drew a bye last week and spend most of their spare time in fixing up the defects that caused their 12-to-5 defeat at the hands of the championship-bound Hollywood Poothillers, refuse to consider themselves out of the race despite the opening setback. Poly has a strong equad and figures to show a much better attack on the Collseum turt than it did against Hollywood, where the loose-dirt gridiron made it tough for the Mechanics to keep their feet. Furtach, Stephens and Young are shifty open-field runners and may show the fans a few thrills if they get out in the open against the Rall-spitters.

However, the Mechanics aren't looking for any pushover, despite the fact that Lincoln has been besten by L. A. High and Hollywood. The breaks went against the Hallspitters in both games and Coach Bill Bates believes it's about time for Lady Luck to get acquainted with his eleven. Lincoln has always "pointed" for Poly in the past and generally

have never lorgottes that, so they'll be out to do their stns with a vengeance.
Franklin and Manual Arts figure to provide the feature game of the week-end and most fans are making the Kiteshyers favorites. Cosch Hess's eleven thumped Jesterson, 32 to 6, last week, while the Artisans were only able to trim the Democrats. 30 to 6. However, comparative acores mean nothing and Jim Blewett's Purple and Gray gridders may upset the Kiteshyers despite the fact that they're being made the underdogs. The Tollers looked like worldbeaters at times against L. A. High lass week, but after Grossman intercepted a pass and sprinted eighty yards to a touchdown they seemed to lose their pepper. In the second half the Romans had things mostly all their own way. All of which will give Blewett a good argument with which to prod his athletes into fighting form for the Frank-lin tiff.

Nixon Invents OBSERVATIONS "JEEMMY" LONDOS TAKING GAMES FRIDAY New Method to Stop Fumbling

CLAREMONT, Oct. 24. (Exclusive)—The strange and wholly unusual sight of sane and otherwise ordinary young men going everyfhere with a football tied around their necks, may be in store for Ponecks, may be in store for Po-mona College this week. Coach Eugene Nixon told his men before the Pomona-Whittier game Saturday that if there were any fumbles, every man on the squad would have to tie a football around his neck and wear it religiously, only taking it off for practice, as a means of getting familiar with the oval. There weren't any fumbles against Whittier,

BEAR GRIDS HOLD DEFENSIVE RECORD

BY THE

WHERE in the United States can you find one State with three football teams with three football teams better than California, Stanford and Southern California? This question was propounded by C. F. Hayden as part of an argument over which State leads the world in the matter of football. After considerable cudgeling of brains we decided that the only State we could think of with teams capable of being compured with our three California elevens is Pennsylvania, the home of football. There they have Pittsburgh, Washington and Jefferson and Penn State, the first two unbeaten and the third an admittedly great eleven. Illinois has Chicago and Illinois, indiana has Notre Dame and Indiana and we don't know many others, although our wife, who still thinks Robert E. Lee won the war back in 1865, reminds us that Georgia beat Yale and Georgia Tech has not been beaten.

Bill Snyder, the demon photographer, has just come to the surface with what will probably be unanimously regarded as the world's worst bet. Bill has just gambled that the Trojans will lose three out of the games remaining on their schedule. He says that he got 3-to-1 odds on his wager. Fretty nearly everybody will admit that California. Washington, Washington, Etale and Notre Dame are tongh customers but there are certainly very few folks who would figure that the Trojans won't win two of those games. However, Bill is greatly pleased, and the funny part of it is that hels always making bets like that and getting away with an alarning share.

In the estimation of the proprietor of this column it is going to take smart football to beat the Trojans. By smart football we mean good football with no fumbles but good all around playparticularly on the offense. Everything we've seen this year indicates that ordinary straight-away power is not going to do much to the Trojans but, on the other hand, they haven't looked very good even against ordinary forward plassing nor when passes were inevitable. If the California Bears have as good a combination running and passing attack as everybody says, perhaps they are the boys who will give the Trojan defense a good test.

About the only other game of any great consequence in this vicinity on Saturday will be the attempt of the Oxy Tigers to remain in the race for the Conference title is concerned that is really a small matter compared with the old score that the Tigers have to settle with the Engineers.

A pair of similing rematches, one, a grudge bout of the first water, will seature the card at Ocean Park Atheres to the court of the passing of titles, because such both court of the passing of titles, because such both court of the passing of titles, because such both court of the passing of titles, because such both court of the passing of titles, because such both court of the passing of titles, because such both court of the passing of titles, because such both court of the passing of titles, because such both court of the passing of titles, because such both court of the same passing of titles, because such both court of the same passing of the passing of titles, because such both court of the same passing of the passing of titles, because such both court of the same passing of the passing of titles, because such both cours of sevents, but I am at a loss when I was set of the same of a many street of the passing of titles, because and the court of the same passing of titles, because and the passing of titles, because and the court of the same passing of titles, because and the court of the same passing of titles, because and the court of the beautiful titles and the same passing that the court of the same passing that the court of the same passing that the class corresponding to the court of the same passing that the class corresponding to the court of the same passing that the class corresponding to the court of the same passing that the class corresponding to the court of the same passing that the class corresponding to the class to do the title threat of the same passing that the class corresponding to the court of the class corresponding to the court of the class corresponding to the class corresponding to the class to do the title threat of the court of the cour

PLAN TO SIT TIGHT

TOPEKA, Oct. 24. (P)-Tulsa and

Two stiff workouts instead of one light one has been scheduled for to-day by Jim Londos, Greek mat champion, who meets Paul Jones, the frexan hook body-scissor expert in the feature event of Lou Daro's wrestling show at the Olympic to-morrow night.

Londos will put in two hours of grappling with his trainer. At least two hours will be devoted to his second workout at the Manhattan gymnasium this afternoon.

In the last few days the little Greek has become instilled with a desire to beat Jones faster, and give him more punishment than he has any other man here. The Texan's demand that the Greek post a \$1000 guarantee is said to have had something to do with Londos's unusually heavy training schedule so close to a bout.

THE PURPLE'S PUNCH

Rillott, Ohio State its Marek and its Eby, but Northwestern is not worrying, for hasn't it Vie Gustafson and Tiny Lewis, two of the sweetest ball carriers who ever trod a gridinon? Perhaps the Purple rooters are a bit carried away by their enthusiasm. Perhaps Vie and Tiny are not the two greatest backs in the country, or even in the Western Conference, but just the same, they'il do for little old Northwestern, and Northwestern may well be proud of her two stalwart sons.

Didn't Vie Gustafson eatch the opening kick-off in the Chleago game last year and dash 92 yards through the entire Marcon team to a touchdown, helping the Purple to defeat Stagg's men for the first time in ten years? Fill say he did, and right in the new stadium at Evanston, too! Vie comes from Wheaton, Ill., the home town of the great Grange, so touchdowns on the kick-off

are to be expected from him. On the second play of the 1926 Northwestern-lows game, Gustafson stepped 65 yards for a touchdown that was muliified because of off-side play. He also is a hasketball player of some ability, which accounts for the manner in which he snares passes.

Now for Brother Lewis, the big fullback, called "Tiny" in fun, but christened Leland. A triple-threat man, this Lewis person, who can pass, kick and run, as easily as yor or I walk, talk and eat. In the South Dakota game early this month, he not only ran the opening kick-off back 85 yards for a touchdown, but he ran 101 yards for a score later on in the game. Tiny eats up yardage like Tony Lazerri does macaroni!

Northwestern meets Missouri this Saturday. The Tigers beat Nebraska a couple of weeks ago with two of their star players injured, so it appears that Gustafson and Tiny have their work cut out for them, but Capt. Gus wasn't named Victor for nothing!

Among Those Downed in Squash Tourney

Several teams of favorites fell by the wayside in the opening round of the junior national doubles squash championship which is being staged at the Los Angeles Athletic Club. "Big" Bill Tilden, national tennis ace and actor, with his partner, Church, were among those eliminated in the play yesterday. Tilden and Church bowed to Shanholtzer and Hilliard in straight sets. Maynard Laswell, retired handball champion, was also the member of a team that bit the dust in the play.

Laswell and his fellow squasher, Miller, were defeated by the two Carvers. Les Klawiter, winner of the singles title last week and his partner, Cooper, advanced to the second round with a victory over W. O. Brien and Stanton. Henderson and Drake put Maxwell Stiles and Boyd Comstock out of the running in the first match of the day. Bill Holman, runner-up in the singles play, and his partner, Albright, downed Schroder and Stanley. E. O'Brien and Boultinghouse won from Vance and Risley in the other match on the card.

The results:

Henderson and Drake defested Stiles and Constant. It. 17-12.

Donald Signs FAST OUTFIELDERS IN BASEBALL HERE SUNDAY

Two of the best outfields local fans have witnessed in action will be seen at Wrigley Field when Lou Gehrig's team tackies "Babe" Ruth's slugging outfield Sunday afternoon under the auspices of the American Legion Posts of California.

"Babe" Ruth, the hardest hitter in baseball, is scheduled to play left field for his squad. Arnold Stats of Brocklyn, rated as the best flychaser in the game, will be in center and Doug Taitt of the Boston Red Sox will hold down right field.

Gehrig will have a combination almost as strong. Art Jahn, drafted from Los Angeles by the New York Giants, will hold down his old spot in left field. Ernest Orsatti of the St. Louis Cardinals will play center and Wally Hood of the Angels will be in sight.

Marty Krug of the Angels and Bill Essick, who piloted the Vernon Tigers to three pennants, declared that Ruth had the strongest outfield

washington, oct. 24. (P)—The action of the lower courts in upholding the California Real Estate Brokers' License Act was affirmed today by the Supreme Court without a written opinion. Twenty-seven other States have 'milar laws.

The court set aside real estate commissions covering in part services rendered by a lawyer not licensed under the Real Estate Brokers' License Act of California in a case brought by H. C. Haas against L. Greenwald and others to recover a commission of \$20,000 on a real-estate transaction in San Francisco. It was contended by Haas that with Walter W. Stevens and A. M. Johnson he was commissioned by Greenwald to arrange for the purchase of the property. He and Stevens were licensed real-estate dealers and Johnson, a lawyer, was not licensed. Greenwald refused to carry out the purchase and was sued for the California Real Estate Brokers' License Act Greenwald could not be compelled to pay the commission because Johnson, who claimed a part of it, was not a licensed real-estate dealers of the purchase and was sued for the California Real Estate Brokers' License Act Greenwald could not be compelled to pay the commission because Johnson, who claimed a part of it, was not a licensed real-estate dealers.

SHIP MONOPOLY CHARGE STUDIED

Federal Board Designates Special Committee

Proposed Pacific Line Sale to Await Report

Proof of Combine Expected to Defeat Deal

WASHINGTON, Oct. 24. (Exclusive) Convinced that the proposed sale of the three west coast Shipping Board lines should be given more scrutiny, the board today ordered a special committee made up of Commissioners Teller, Myers and Hill to make a thorough study and report back as quickly as possible. The committee may take a month to finish its report, as it intends going into all phases of the case with much thoroughness. Teller and Hill are of the majority group of the board, which has been insisting on a ten-year guarantee sof continuous operation if the lines are sold, while Myers, the Portland member, has been the leader of the five-year-guarantee group of which Chairman O'Connor is the only other member.

COMBINE ASSERTED

The committee expects to investigate the charge that the various groups which have indicated their intention of bidding for the three lines are in reality representatives of a gigantic shipping combine that will have a monopoly of Pacific Coast shipping if their plans are carried out successfully. The board has been advised that certain lumber interests with extensive holdings, having headquarters in Fortland, are back of the movement to buy these ships. The oriental business would be handled by the Matson

With this intordated to deal to do year and to a possible. The board mem sad to be interested in this proposed monopoly of pecific alighing before the Senate committee when the sale of the passenger boats to the Dollar Line was under investigation.

MORROW HOLDS

Ambassador's Arrival Stirs Press Comment

Hostility to United States Revealed by Articles

Selection of Banker as New Representative Pleases

arrival.

The Excelsior article says, "But for a few brief hours Ambassador Morrow has been in Mexico City. Naturally from his car window he could not form even a passing opinion of Mexico. The new American Ambassador is not a diplomat, which is pleasing, for the American diplomats we have had in recent years haven't characterized themselves by their spirit of justice nor by their correct interpretation of our affairs. Therefore, instead of producing closer relationship between the two countries they have done everything possible to separate them, implanting among us old suspicions of Washington's policy."

NEW POLICY INFERRED

The article sustains this contention by citing President Coolidge's own action in replacing former envoys by the selection of one of his own personal confidential friends, "indicating thereby that his previous reports are subject to revision, which will facilitate the arrangement of difficulties existing between the governments."

Reference is made to the fact that Morrow is a banker by profession but it '1 also is pointed out that he possesses certain traits of the statesman, which were revealed during his sojourn in Europe as special United States agent during the World War. This fact serves to detract from the supposition that Morrow is bringing to Mexico the policy of moneyed imperialism sponsored by Wall street. Something higher, more transcendental for both countries is in play in the present movement, the paper goes on to say.

Comparisons are made between the wealth of the United States and that of other countries. In this respect, it is said, the United States and that of other countries. In this respect, it is said, the United States are responsible. Incomprehension or disdain is the attitude of Latin America toward the United States are responsible. This investigation, it says is sorrow's most important mission.

"There is nothing more logical than for Morrow to defend the interests of his fellow-citizens, but nothing more honorable than that he investigate why the defense of those interests, when transferred to the Mexican political field, appears to us in Mexico as an eternal aggressive wea-

AMBASSADOR ACCEPTABLE

The appointment of a banker is perfectly acceptable, declares the editorial, since he is a man of first rank and ability, and it sees Morrow's appointment as the most favorable move of President Coolidge toward Mexico yet.

It points out that Morrow is capable and not a professional politician, which is the true basis for the solution of problems between the two republics, since the problems are essentially economic and social.

Shallow Grave Holds Mystery

MARION (Ark.) Oct. 24. (P) — A hallow grave beside a funeral pyre has revealed the fate of a man who, officers believe, was suspected by moonshiners of "knowing too much."

A heap of ashes in which was found a human skull and fragments of bones resulted in Sheriff's officers finding other parts of a skeleton in a crude grave a few feet away. About fifty or sixty feet distant were the remains of a still that had been demoliahed, apparently by Federal prohibition agents.

Los Angeles has a Community Chest because it is the most efficient and economical way to raise the money needed for welfare work in a great city. Each year one appeal is made and the money you give is divided among the 150 charitable welfare organizations whose work has been investigated and approved by the Chest. These include, not only the hospitals and orphanages, but the Red Cross, Y. M. C. A., Boy Scouts, and every efficient means of welfare and relief in this great city.

Each of these organizations submits its budget to the Chest, where it is analyzed and frequently reduced to a lower figure. The total of all the approved budgets, plus the cost of administration..(2½%) and campaign expenses..(3½%)..is the sum you are asked to give.

Every great city needs and must have great sums of money for necessary welfare work. Los Angeles, "The City of the Angels," has passed the million mark and continues to grow. We count on you to "give one day's pay".....more if you are able.

Wheat Market Rallies After Early Decline

GEICAGO. Oct. 24. (Resistates)—Wheel was weak and 163 Me lower centr, with all deliveries selling at a new low on the crep. Northwestern hedging preserve was a factor, but the break brought in agreemive buring and a raily of 14. 626 from the low point followed. The finish one at intermediate figures, with prices unchanged to Me lower. December finished at 1.214 60 1.278 and March 1.239, 91.239, 10.238, 10.278 and March 1.259, 91.209, 10.278 for the day, with rys Me lower to the higher.

Westboard in Liverpool wheat, which was 1% 60 26 lower at the last, with continued favorable weather in Canada and a heavy novement in that country to the head of the lake had considerable influence on the local market, and with the pressure from the Northwest, the decline was easily attained. However, there was a marked change in sentiment in zens quarren, with wheat fact covering, which absorbed the surplus in the pilt, and with an unorposed decrease of 470,000 behinds in the dissertion legal operator, and the finish was on a good reaction from the best figure.

CONTINENTAL AND COMMERCIAL TRUST AND SAVINGS BANK, CHICAGO, TRUSTEE

Mr. John B. Nichols, President of the Company, summarizes his letter to us as follows: BUSINESS: Oklahoma Gas Utilities Company, organized under the laws of Delaware, upon completion of this financing will own or control natural gas production and future gas and oil rights on over 3400 acres located in Grady Coanty, Okla., previously owned and operated by Mr. John B. Nichols since 1922. It will also acquire a controlling interest in the Little Nick Oil Company of Oklahoma, which company likewise produces and wholesales natural gas.

Oklahoma Gas Utilities Company is a producing company and will supply gas at wholesale to Oklahoma Natural Gas Company, Midwest Gas: Company, Rush Springs Gas Company, Abderson & Pritchard Oil Company, and through its subsidiary, Little Nick Oil Company, it will supply Southwestern Light & Power-Company, Oklahoma Natural Gas Company and Meridian Gas Company. All of the foregoing, except Oklahoma Natural Gas Company and Meridian Gas Company, will purchase gas exclusively from Oklahoma Gas Utilities Company and its subsidiary for distribution in the territory served.

GAS SUPPLY: In the opinion of independent geologists, the Company will own or control producing gas wells or gas rights in such wells having an aggregate daily open flow capacity in excess of 300,000,000 cubic feet. The Bonds.

EARNINGS: The following Net Earnings for the year ended August 21, 1927, have been certified by Messrs.

Arthur Young & Company, and the estimated Net Earnings for 1928 and 1929 have been made by independent engineers after a detailed survey of the domestic and industrial demand in the communities now being served.

Maximum Annual Interest Requirements on this issue of \$800,000 Bonds

\$118,923.78 \$181,670 \$237,540

Net Earnings as shown above are equivalent to over 2.2, 3.4 and 4.5 times, respectively, maximum annual interest requirements on this issue of Bonds. These earnings do not include the Company's proportionate amount applicable to its stock control in Little Nick Oil Company, which latter had \$56,054.55 Net Earnings available for interest for the year ended August 31, 1927, as reported by Messrs. Arthur Young & Company.

SECURITY: These Bonds will be secured by a First Mortgage on all fixed physical property of the Company and by a pledge or mortgage of gas and oil production rights valued by independent engineers at considerably in excess of the Bond issue. The Company's balance sheet as of August 31, 1927, shows net assets of \$2630 for each \$1000 Bond.

PURPOSE OF ISSUE: The proceeds of these Bonds are to be used for the acquisition of properties, capital additions and extensions, and for working capital.

These Bonds are offered, when, as and if issued and received by us, subject to approval of Counsel. All legal proceedings in connection with this issue will be passed upon for the Bankers by Messra. Chapman & Cutler, Chicago, and for the Company by Messra. Bond, Hatcher & Bond, Chickasha, Okla. Engineering and geological reports by Mr. James O. Lewis, of Dunn & Lewis, Tulsa, Okla. Audits by Messra. Arthur You ng & Company. It is expected that temporary bonds of the Company will be ready for delivery on or about October 11, 1927.

It was thought anthracite coal would not burn

ONG before 1850 it was known that large deposits of anthracite coal lay in the hills of Northern Pennsylvania, but it was popularly believed that this coal would not burn.

After much experimenting, a group of financiers found that this supposedly worthless material was in reality a fuel of great value. They built a railroad to bring the coal to the seaboard. This railroad forms a central link in what is now the Delaware, Lackawanna and Western System. But the coal was not easy to sell. It was only after a corps of men had been employed to show the people how to burn this new fuel that a profitable market was established.

A leader in this group of financiers was John I. Blair, the founder of Blair and Company, a pioneer in the building of many other

railroads, particularly in the West, which was then opening up after the Civil War. To John I. Blair and William Salomon, whose banking house was combined with Blair and Company in 1920, is credited the financing and building of important units of some of the greatest of our modern carriers.

The experience of Blair and Company over a generation encompasses practically all forms of financing in virtually every part of the civilized world.

constitute one of the largest natural gas systems in the United States and will serve a population of approximately 600,000 in some fifty communities. The population of the counties in which the pipe lines are located is over 1,400,000. The communities served at retail include the cities of Tulsa, Sapulpa and Okmulgee, Oklahoma; San Angelo, Texas; and Erie, Kansas. Oklahoma City, Muskogee, Shawnee, Norman and Guthrie, Oklahoma, and Iola and Chanute, Kansas, are among those served at wholesale. A large number of industrial consumers, among which are many of the most prominent corporations in the country, are also supplied. The gas sales of the subsidiaries of American Natural Gas Corporation, including those under contract of purchase, amounted in 1926 to over 34,000,000,000 cubic feet.

AT BEING PORTRAYED ON STAGE

BERLIN, Oct. 21. (P)—The former Emperor cites a law promulated by himself in 1907, which provides that "likeneases" may be published or displayed only with representations of himself on the German stage.

Learning that Erwin Piscator, who recently founded the Communist Theater, intends to produce soon Alexei Tolstoi's "Rasputin," in one scene of which William II appears as a character, the exile of Doorn, through an attorney, requested Piscator to desist. WOMAN STARTS MILL

Mrs. G. A. Tweedy Turns Switch at Argentena Mine Plant

Full mining and milling operations were started on Saturday afternoon when Mrs. George A. Tweedy, wife of the engineer who has had charge of the development and mining program of the Argentena Consolidated Mining Company, threw the switch which started the company's new mill, the last unit in the construction program to be completed. The ceremony was attended by a delegation of stockholders, officials of the company and guests from Los Angeles, and by representative business men of Las Vegas and other Nevada communities.

During the morning the underground workings of the mine, totaling nearly 3000 feet, were inspected, and the aerial tramway which conveys the ores by gravity from the mine to the mill and to the shipping bins was placed in operation.

Statements in Defense Policies Presented

Suspension of judgment upon S and and two of his aides until report is received from the Bureau of Efficiency upon the condition of

of this department, which brought about a recommendation of their dismissal from the grand jury, was announced yesterday by members of the Board of Supervisors.

The Supervisors yesterday received written statements from R. R. Miller, assistant, superintendent in charge of outdoor relief, and Miss Emily Wooley, chief case supervisor, the two sides named, as well as a letter from Superintendent Holland which asked for an impartial investigation and

The last paragraph of his letter was as follows:
"You are well aware that the welfare work of Los Angeles county has reached a crucial stage where many agencies are at work to destroy the magnificent institutions which have been built up through the co-operation of the Board of Supervisors and while the criticism is directed at the superintendent of charities it is evident the enemies of county government are using it merely as a means of gaining control of the county's resources and expending them under political supervision for personal and private gain."

Mr. Holland declined to amplify the statement.

REPORT ALMOST DUE
The Bureau of Efficiency, coposed of County Auditor Payne of the secretary and members of Civil Service Commission, was as

weeks ago. The report will be filed within a few days, said Mr. Payne, the declimed to intimate the tone the document will take.

The Supervisors at that time, it is sexpected, will have Mr. Holland before them and will act upon their own information, the grand jury actuantion. The statements of Mr. Miller and Miss Wooley defended the policy pursued by them in administering outdoor relief. In answer to the grand jury's accusation that their department has "pet" cases, goes in too much for social welfare experimental work and follows out too freely the principles of theorists, the two employees explained that a certain amount of such work is required in addition to dealing out food, money and groceries to rehabilitate the indigent and downand-outer.

WILL STUDY CHARGES

WILL STUDY CHARGES

Mr. Miller concluded by promising to study the grand jury report and to meet its "just criticisms" and to justify what he believes to be an honest and efficient effort to discharge his duties.

Miss Wooley's statement ended on this note:

"If the desire to witness the employment of modern methods of case work in the Los Angeles county charities—those methods which are upheld and indorsed by every well-known social agency in the community—is a crime—then I pleag guilty."

The grand jury declared that the outdoor relief division is expending 27 per cent of the total in overhead, in addition to the other charges. Mrs. Carmen Romo, an employee of the paper company and a friend of Marino, told the officers she saw Marino preparing to enter the place and pleaded with him not to set fire to the plant. Marino is charged with suspicion of arson. City Controller Myers yesterday refused to pay a repair bill of \$403 for repairing one of the Council's fleet of automobiles. Regardless of who was to blame for a collision between two automobiles at Sunset Boulevard and Main street Sunday morning, both were guilty of disturbing the peace and tying up traffic for more than ten minutes, Municipal Judge Wilson decided yesterday.

The magistrate fined Gustav Stagno, a clerk of 1250 Pueblo avenue, and Elmer J. Copperly, an engineer of 1350 North Linden avenue, Clendale, \$25 or ten days in jail. Both elected to pay.

Policeman Louis was directing traffic at the ordinarily busy intersection when the collision occurred, he reported. Stagno accidentally drove his machine into the car operated by Copperly but the latter didn't appreciate the joit and backed into Stagno's automobile, the officer stated.

field of the Superior Court, was continued until November 10 when it was called yesterday in the court of Judge Stephens.

Mrs. Rose Smith, aunt of the minor, is contesting the application of Mrs Ethel Summerfield, the child's stepmother, to be appointed guardian. Mrs. Smith asks for the appointment herself, basing her claim upon a provision in the original will left by the judge.

Mrs. Summerfield bases her claim upon a codicil to the will, which Mrs. Smith, in turn has attacked as having been signed while Judge Summerfield was under undue influence and mentally incompetent. The case was continued because Attorney Griffith Jones, counsel for Mrs. Smith, had filed her contest only last Saturday, and Attorney White, counsel for Mrs. Summerfield, had no time in which to prepare his defense to the charges contained in it.

By his original will Judge Summerfield left his half of the community estate to his daughter by a former marriage, and nominated two of his own relatives as guardians. The contest is based largely upon the theory that because of this difference in the two documents, Mrs. Summerfield's interests are adverse to those of the minor.

PARIS (AP)—Some of the most important evening dresses shown by Vionnet are devoid of trimming. They depend upon long draped lines, fabric and delicate color for their

beauty.

Creps satin in pale tints is used extensively by Vionnet and she often
hangs a slender drapery from the
shoulder in such a way that it does
not interfere with the slender silhouette of the dress.

Pale gray and pale pink bordering

in Hallowe'en Frolic

Prom the day the invitations went out until Hallowe'en Lois thought of little else. She took a hat hox, drew a cat on each side, out out the cats, and pasted this paper over the openings.

An electric light placed inside the box illumined the cats. They glowed on the dark porch like creatures of fire. A white robed figure standing at the door of the darkened house aliently directed the girls upstairs while the boys stayed down. Lois passed tiny brooms tied with ribbons of various colors. As each guest took a broom she intoned:

"Love and riches wait I ween.

Him or her who chooses green."

Old rites were tried. When Martha threw the apple peeling over her left shoulder, it felt, strangely enough into the form of "L."

End Fat The way is now easy and pleasant

Anybody who suffers from excess fat should learn what modern science offera. Don't starve, don't over-exercise. Combat the real cause. Supply your system with that which turns food into fuel and energy rather than into fat.

Modern research discovered that way some two decades ago. It was then embodied in Marmola prescription tablets. People have used them for 20 years—millions of boxes of them. Today the results are seen and told everywhere. Most people are slender. All modern styles are adapted to them. They have supplied their systems with the natural factors which prevent the formation of fat.

Users of Marmola do not attempt abnormal exercise or diet, though moderation helps. They simply take four tablets daily until weight comes down to pormal. New vivacity, new health comes at the same time.

Overtures of marriage by Miss Jennie E. McFadden, with offers of love, affection and unlimited wealth, which he declares he turned down because he did not want them, were testicited to by R. H. W. Albrexstendare in Superior Judge Beecher's court yesterday, when the trial of the suit against him for \$20,800 by Walter J. Richards was resumed.

Albrexstondare caused somewhat of a sensation by stating in roud and accusing tones that Miss McFadden had threatened to have him arrested and sent to jail through influences she wielded with the authorities, that after he was arrested he was besten no badly while in jail at Sarta Ana that he lost hearing, memory and consciousness of his surroundings for many months.

"Her agents followed me to San lego, Tecate, Mex., to Santa Ana and even to New York City, and sought to harm me," asid Albrexstondare, who also asserted he was slugged in Lower California by said agents.

"Isn't it a fact that you were the ling brought back to face a sentence for practicing medicine without a license?" asked Attorney Ben W. Hahn, who represents the plaintin.

WARNED BY JUDGE

Attorney Hahn sought to show that the defendant got into a row with the men who had put up his ball bond, but Judge Becher held that the case is getting out of bounds and he warned counsel to confine themselves to the issue.

Albrestondare, who asserts that the \$20,000 at issue was composed of checks of "appreciation" for his efforts to improve the health of Miss McFadden and her mother, was on the witness stand all day and told how he had been invited to the McFadden home to use it as his own, that he was given a suite adjoining Miss McFadden's, how he treated the latter for a list of complaints so numerous it kept the court reporter busy noting them.

During one of the flurries between counsel, Attorney Frank Bryant for the defendant made a declaration that the beating his client had received in the Orange County Jail was such that it was being investigated by Federal authorities.

A deposition taken at the bedside of Mrs. McFadden, 30 years of age, mother of Miss Jennie McFadden, was read into the record by Attorney Hahn, with many objections from the defendant's counsel.

Why Children Need **Breakfasts** that "Stand By"

80% of the Day's Important School Work Falls in 4 Morning Hours, Noted Educator Reveals

ARE you letting listless mornings, brought on largely by wrong breakfasts, handicap your child's school work?

Recent investigations, conducted in over 2,000 American schools and colleges, reveal 80% of the so-called "hard" studies as falling in the morning. This percentage is confirmed by Prof. Willard, of Northwestern University, and other leading educators.

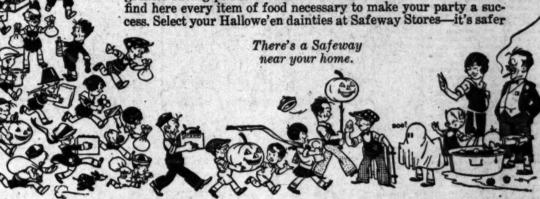

Thus Quaker Oats breakfasts, providing the excellent food balance of protein, carbohydrates, vitamines and the "bulk" to make laxatives seldom needed are being urged as a duty of parents in protecting their children's most important working hours. No other cereal grown compares in food balance.

Serve every morning. Their rich Quaker flavor makes them savory and enticing... delicious breakfasts that yet "stand by" one. Get either Quick Quaker, which cooks in 2½ to 5 minutes, or regular Quaker Oats today at your grocer's.

Starling's situations are rather artificial, and his characters somewhat

ertainingly drawn. It is pretty dif-fault to identify the type as very real, but then that doesn't appear to matter in particular.

Miss Undetwood portrayed the "un-conscious bigamist" with a stroke of broad caricature, that at times seemed overdone. She was successful, how-ever, in inviting a mirthful response— perhaps the result chiefly to be desired.

"Sinner," which Buchanan terms one of his finest comedies, is said to be well filled with fumny situations. According to John Litel, who plays the part of the husband in "Sinner," wives are true for the first year, but after that they usually look for another husband. "Men who lose their wives after the first year of matrimony should see "Sinner" and learn how to keep them," says Litel, philosophising with a purpose.

James Durkin is directing "Sinner," which, according to the management of the Morosco, is proving the bigg-st hit or 1927 season at the theater.

PERSINGER QUARTET WELCOMED

Electric Enthusiasm Felt by Audience Present at Beaux Arts

BY ISABEL MORSE JONES The Persinger Quartet of Santa Barbara opened the Los Angeles sea-son of chamber music at the Beaux Arts Auditorium last night with a program of extraordinary vitality and verve. The quartet was wel-comed with a large audience upon and verve. The quartet was welcomed with a large audience upon which the three programmed composers, Beethoven, Dohnanyl and Glazounow, as vividly interpreted by the Persingers, made a deep impression. Measrs. Persinger, Pord, Firestone and Ferner have achieved the aim of all ensemble players, that of playing as one with the color and interest of four varying and sensitive temperaments. Mr. Persinger is that paragon among first violins, a leader who maintains a balance and an enviable precision.

Walter Perner's 'cello playing is unforgettable. His tone is one of rare beauty and whenever the 'cello has the solo voice his instrument speaks with authority.

After hearing the Persingers play the Beethoven quartet in B flat major, with their grace and understanding, it is easy to agree with those who declare the Beethoven quartets to be superior to anything else he ever wrote.

Placing the Dohnanyi A minor quartet after the Beethoven was a master stroke. It is a call to youth the sophisticated, but highly sensitive youth which leads our world today. It is, upon first hearing, a work of amasing vitality and unceasing energy.

Appraisal of industrial pro-

Appraisal of industrial property will be discussed before the open-forum session of the Los Angeles Realty Board this evening, instead of farm lands, as was previously announced, according to H. R. Bergh, chairman.

Two speakers have been obtained for the meeting. They are J. A. McNaughton of the Los Angeles Union Stock Yards and W. H. Daum of W. H. Daum & Staff, industrial realty dealers. Basic factors that go to make up value in industrial property will be presented, to be followed by an actual appraisal of a manufacturing site. Members of the class will assist in making this appraisal.

UPLAND, Oct. 24.—Strong hope was expressed here today that full identity of the body of a suicide found under an East Eighth-street found under an East Eighth-street bridge here two weeks ago, will be established. The suicide is believed by police to have been Edward J. Green, who has been sought for several weeks by the Los Angeles county Sheriff's office. Chief of Police J. F. Sawyer has received a bulletin from Sheriff William L. Traeger bearing a picture of Green. The picture is said to bear a strong resemblance to the suicide and the description of the man wanted corresponds to that of the dead man. Notation printed on the bulletin says: Green may attempt to commit suicide and you are requested to check this description with all unidentified dead."
